

## **WE ARE LOVE**

### ***SOLOIST***

If I ask you what love is,  
can you answer me together?

Can you gather the starlight from your laughter,  
give song to the small, shy birds flying through your heart?

If I ask you what love is,  
can you answer me together?

Can you rise to the sunset's shoulder,  
join each other in shimmer?

If I ask you what love is,  
can you answer me together?

### ***CHOIR ONE***

Because joy is a question  
And song is a wing  
And love is a wind

### ***CHOIR TWO***

that we answer with wildflowers and song  
circling the wide throat of love  
we travel to meet ourselves in each other

### ***TOGETHER***

We are love

### ***SOLOIST***

We meet ourselves in each other

### ***CHOIR ONE***

Because joy is a window  
And song is a shelter  
And love is a map

### ***CHOIR TWO***

that has opened itself to our voices  
for hearts that have shattered like stars into light  
we study to find ourselves in each other

### ***TOGETHER***

We are love

***SOLOIST***

We find ourselves in each other

***TOGETHER***

We must answer you together  
For the answer *is* together

***CHOIR ONE***

Because joy is a half note  
And song is an echo  
And love is a homecoming

***CHOIR TWO***

in the lung of a humming child  
left by the swans that flew from our tongues  
where we meet ourselves in each other

***TOGETHER***

We are love

***SOLOIST***

Here is where we meet ourselves in each other
